Q&As as of 22.07.2025

1. Can we use boom and mast for projecting the body outwards?

Yes. Neither RRS 49.1 nor SI Addendum B (as amended) prohibits doing so.

2. Can you please clarify what limitations apply to crews leveraging their weight off the side of the boat, holding onto the spars of the yacht (including boom and mast)?

Please refer to Answer 1, RRS 49.1, SI Addendum 2 and WS MR Call L3.

3. We can't hike off vang or backstay - does this mean we can't hike off any part of the ropes - including the line after the blocks?

Yes.
