

Dear participants,

We listened to you last Worlds and for the first time we will work with an online system for reserving a time slot for measurement. Please give your feedback during measurement or the competitors hearing.

You can reserve a time slot in 2 ways:

1. Using the online system by following the link: <https://datumrikker.nl/pyxcuwuczhc3667z>
2. By sending an email to me with your boat nr and 3 possible time slots (tanja.heijink@gmail.com)

Rules:

- The online system will be open until 20 July 12.00 hrs.
- After this you can only register by sending an email to tanja.heijink@gmail.com with your boat number and 3 proposals for a time slot. I will look which time slot is available at that time and will reserve that one for you manually.
- On the day of the measurement, you must present your boat at the beginning of the time slot. The boat needs to be ready for measurement (see the measurement instructions on the notice board).
- We will publish the schedule as soon as possible on the notice board with the current registrations and open slots.

Instructions Online system:

- Follow the link: <https://datumrikker.nl/pyxcuwuczhc3667z>
- If you are opening the link on your mobile it is possible you have to scroll down after the ads for the instructions
